Re: Paver Work

Dear Mike,

Firstly, we wish to thank you, personally, for coming to our home to take a look at our backyard, doing your measurements and getting back to us so quickly with a very competitive cost estimate. Not only were you professional but nice to talk with. You understood exactly what our vision was and jumped right in to make it come true.

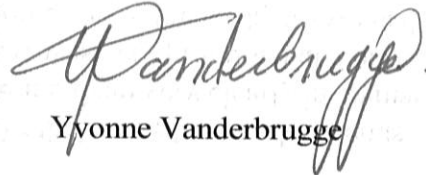

Secondly, we wish to thank Venus and his crew for their excellent work! Venus was very cooperative and patient with our questions, answering them very clearly in layman's terms so that we could understand. The entire crew was very professional, courteous, prompt and just plain nice. They did a fantastic job creating the backyard we had envisioned and once completed, cleaned up everything so one would never know they had been here.

We can't wait to show off our new "look" to our friends and family, and are looking forward to many warm summer day barbeque parties, evening soirées and just plain lounging about in the sun with a good book admiring the beautiful work.

We would highly recommend Paving Construction Services, Inc. to our friends and anyone who asks who did our backyard.

Again, many thanks Mike, Venus and the "crew."

Sincerely,

Yvonne Vanderbrugge
